Surgical Technology Associate of Applied Science Degree

Estimated Program Cost

Estimated costs below are based on resident tuition rate, minus College Opportunity Fund (COF) stipend, for academic year (AY) 2025-26. Information provided by program and available on the Pikes Peak State College webpage Tuition & Fees | Pikes Peak State College.

Total estimated cost for the Associate of Applied Science in Surgical Technology (tuition, supplies and fees): $12,220

As an apprentice, financial assistance may be available. If available, potential funding may include sources such as:

- Financial Aid – determined through FAFSA application; applicable for credit-based classes only
- Employer support for tuition up front
- Employer reimbursement for tuition upon completion
- Scholarships
- Workforce Center funds – each county has a Workforce Center; apprentices can be connected to a Workforce staff member for screening to determine if funds may be available

The Pikes Peak State College Apprenticeship team can help connect hired apprentices with the county's Workforce Center and answer questions about funding assistance available at the time (if applicable).
