Master Course Syllabus MAC 2080: Machining Internship

Purpose of Document

This document contains important information about this course's objectives. It may be helpful for you to retain a copy for your records, along with the class specific syllabus. This document will be especially helpful if you decide to later change your course of study.

Pikes Peak State College and the Colorado Department of Higher Education have determined that graduates should have a broad range of learning skills as well as discipline related skills. Both types of skills are detailed below.

Course Description

Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

Credit Hours: 3

Contact Hours: 135 (Internship)

Required Course Learning Outcomes

1. Under supervision at the internship site, the student will apply knowledge of previous course work.

Required Topical Outline

1. Plan of work negotiated with work site, instructor and student.
